TOM TAILOR Beach Time for her Limited Edition

It gently and pleasantly connects the energetic top note with the contrasting sweet-spicy base note of softwood, vanilla and musk. A powerful scent composition that does justice to the vitality and energy of summer.

The Flacon

The bottle, with a bright gradient of orange and red tones, is inspired by watching the sunset from the beach. The packaging design adapts the tie-dye trend with a wave-like batik look that symbolizes the sun's play of colors on the sea's surface.

From March 2021, TOM TAILOR's new fragrance **Beach Time for her** will conjure up memories of the ease and light-heartedness of balmy summer nights.
